

staffan RA

The Staffan RA is a highly maneuverable rollator primarily for indoor use. It is only 59cm [23.2"] wide, making it an ideal option for moving around tighter spaces in and around the home.

Compact Design

The Staffan RA features fixed rear wheels and brakes for better stability and security as well as a narrow overall width that makes it ideal for use in the home. It's easy-to-fold frame makes transport and storage easy. Designed for users that have to deal with walking while suffering from arthritic or neurological conditions, the Staffan RA will allow for maximum stability while performing everyday functions.

Unique Handles

The Staffan RA features unique front-facing, angle adjustable handles that allow users to find the optimal handle position for comfort and stability. Adjustment is easy with

integrated measurements right in the handle tube. The ergonomic design of the grips ensures even distribution of weight. The Staffan RA can also be equipped with a one-hand brake to allow a user to control hand functions on either the left or right hand side.

Adjustable Forearm Supports

The Rebel RA features very unique forearm supports that are adjustable in both height and direction. This ensures that the forearm supports can be positioned in the best possible way for user comfort and stability.
