MAXIMUM INDEPENDENCE IN YOUR HOME

S100 STAIRLIFT

TKE

REPORT OF STREET

NO COMPROMISE ON QUALITY OF LIFE

> Ageing should not mean compromising on independence. And the S100 ensures you continue living independently in the home you love, where the family rooms are full of happy memories.

The NEW S100 stairlift has been optimized to enable exactly this. With unmatched functionality, comfort and safety in the most compact space. It gives you confidence, security and independence in your daily routine. Engineered to your specific needs, it incorporates the latest technologies to give you a lifetime assured independence in your home. Experience German engineering and design at its best with the S100 stairlift from TK Home Solutions.

"I FEEL RELAXED AND SECURE - IT'S JUST LIKE SITTING ON A NORMAL CHAIR"

A compact chairlift made for your Comfort

The **S100 stairlift** has been **specially designed for straight stairs.** Ergonomic, robust and with a modern design, the S100 gives you unparalleled functionality and is available in a discreet neutral and timeless palette that fits every environment. Operating the stairlift is easy. Its **ergonomically tested** controls offer intuitive simplicity. The joystick can be controlled with your finger, thumb, wrist or even the side of your hand. It can be customized on the right or left arm based on your preferences. The wide and deep chair offers **spacious seating**, while the upholstery padding ensures firm comfort.

On the Comfort Model, the **height of the seat and the footrest are adjustable** to guarantee an optimal seating position for the perfect ride. After use, both seat and footrest can be automatically folded with a single action, which is not only practical for easy and safe use but also allows your stairlift to be **stowed compactly**, taking minimal space and leaving your stairs freely accessible for others.

Thanks to its dedicated remote control, the S100 can be called or sent to the level where needed.

Reliability and security in your hands

The S100 gives you proven reliability from a renowned German engineering company. It incorporates all the ultimate safety features needed to guarantee you a safe ride. The newly upgraded belt has a clearly visible buckle which can be attached and released easily with one hand.

We consider enhanced safety essential. Not just for you, but anyone using the stairway.

The optimized armrests have a modern design and ergonomic form that includes an emergency stop button, ensuring your safety and others using the stairs. This can be customized on either armrest.

Both the **belt and armrest come with** safety detection to provide additional peace of mind. The stairlift will not move unless the belt is secure and the armrests fully folded to secure you in our 'circle of safety' during the journey. The S100 unique armrests 'embrace' you securely while travelling up and down the stairs. As well as being positioned at a convenient height, the armrests are long and tapered at the front to give you both a secure grip and extra support when you're sitting down or standing up. And to guarantee maximum security during you ride, the S100 includes our **Obstacle Detection** feature. The chair stops immediately if the footrest touches another object on the stairs.

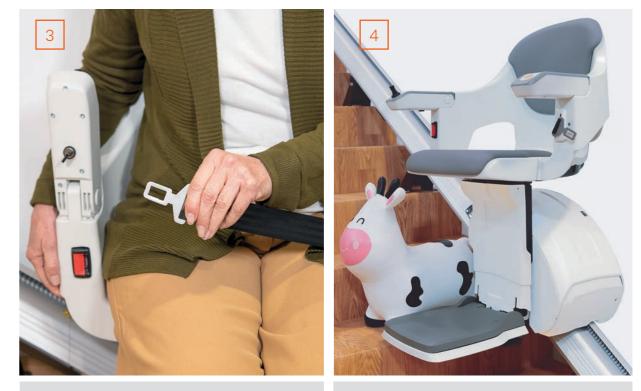

Additionally, the chair can include a **key** lock to avoid unauthorized usage and an alarm button that can be programed with three numbers so you know that help is always at hand if you need it. You can also answer telephone calls through this feature while the stairlift is moving.

1 Stop button

2 Programmable alarm button

3 Safety belt operation with one hand

OPTIMISED HINGE BAIL

The fully automatic hinge rail is an option that allows the lift to be installed even in close proximity to a passageway or a door at the foot of the stairs. When the chair is not in used the rail will fold leaving the space clear.

The perfect ride

The NEW, robust S100 stairlift will allow you to continue living independently in the comfort of your home. It is a commitment we take seriously, and have optimized all features to ensure a lifetime of reliable use.

It is really **easy to use, operated with the joystick to go up and down**, guaranteeing a smooth and safe ride. The optimized swivel seat enables a safe entry and exit at both the base and top of the stairway. **Refined, robust and ergonomic** with unparalleled safety features, the S100 is the essential enabler to help you with a lifetime of ongoing independence in your home. Worry free!

"I FEEL SAFE USING THE STAIRS AGAIN WITHOUT ASKING FOR HELP."

AUTOMATIC SWIVEL

The Comfort Model comes with the automatic swivel-seat. On the top landing it will turn automatically to enable getting on and off safely.

Easy Installation, at your convenience

Our solutions are engineered to guarantee the perfect fit to your stair. Once your stairlift is ready our technician will go to your home for the installation. The **S100 installation is done in a few hassle-free hours;** safely and securely. Our technician will also show you how easy it is to use the chair, and will also make time to answer any questions you may still have. At the end of it all, our technician will leave your space clean, tidy and disinfected, leaving behind only the reliable S100, and the knowledge that you have a lifetime of independence in your home now. Safely!

"I HAVE SAFE AND EASY ACCESS TO ALL OUTDOOR AREAS OF MY HOME"

Free consultation and measuring process

Every situation is different, and so is every staircase. That's why our first step is always a personal visit from one of our experts who will assess your needs, explain the options and work with you to find the perfect solution for you.

Once your customised stairlift is ready, a TK Home Solutions engineer will install it in just a few hours. No construction work is needed as the lift is fixed to the floor of your stairs. They will also show you exactly how the stairlift works, so you can use it with complete confidence from day one.

STEP 6: Full accompaniment in the utilisation of your S100

Services and options that put you first

The quality of our advice, installation and aftersales service is our top priority. We regularly ask our customers what they think of our service so that we can improve continuously and adapt as customer needs evolve. According to a customer satisfaction survey published online by the eKomi feedback company, more than 1000 customers actively recommend our services, with an overall rating of 4.8/5.

All products with moving parts need maintenance. Our advice is to have your S100 serviced once per year. The price of this is € – and as long as you keep your S100 serviced via us you will benefit from our lifetime warranty.*

24/7 SUPPORT

Our customer support team can be reached at any time and we can respond to any emergency immediately.

LIFETIME WARRANTY

We are the first and only stairlift manufacturer to offer a lifetime warranty on all our new stairlifts.

MADE-TO-MEASURE SERVICE PACKAGES

We offer a range of service solutions adapted to meet the needs of different customers.

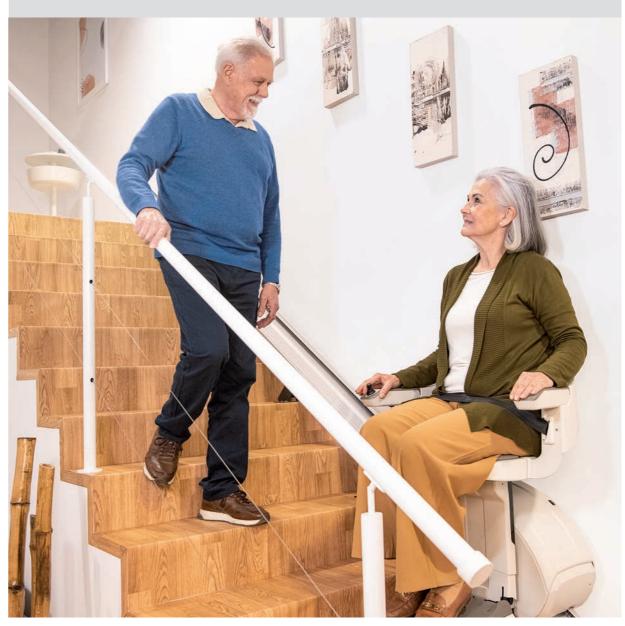

OUR PROFESSIONAL TEAM: SPECIALISTS AND **TECHNICIANS** ARE DISTRIBUTED ALL OVER THE COUNTRY.

"The stairlift is a great help to us. It is slim, robust and of very good quality."

"I use it every day and couldn't live without it. without it. I am also very satisfied with the quality of the annual maintenance and aftersales service."

"The aftersales service is great and their availability on the phone is excellent."

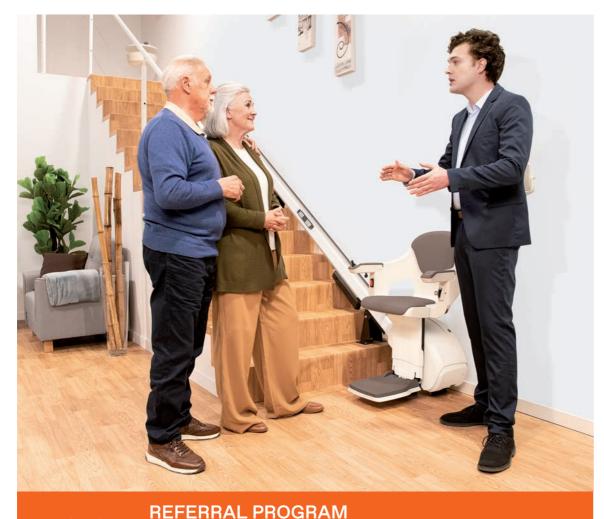

"Thanks to the stairlift. I am able to use the second floor of my house again.

Cour priority: our clients

Over the years, we have been obtained many awards for the excellence of our products and services, but none as important as the recognition of our clients. They are the ones who have made us bigger with their recommendations day by day. That's why, in order to thank their trust and loyalty, we designed the TK Home Solutions Referral Program.

By bringing a family member or friend to TK Home Solutions our clients will earn €XXX.

Make the ones you love the most feel comfortable at home by helping them to recover their independence.

If you want more information about the TK Home Solutions Referral Program contact us on the free tool number XXX

About TKE and TK Home Solutions

TKE is one of the world's largest lift manufacturers. TK Home Solutions is part of TKE and one of the first global stairlift manufacturers with more than six decades of experience in creating bespoke solutions for all kinds of staircases.

Our commitment to continuous research and innovation has resulted in patented stairlift technologies that make life easier for our customers. We apply state-ofthe-art production processes, including automatic robot welding for the highest precision, as well as stringent quality control and testing to ensure the utmost safety and reliability.

Our technical expertise is matched with a deep understanding of the challenges and realities faced by stairlift users and their families. We constantly improve our products and processes to bring the best products and services to match consumers' needs.

As your circumstances and expectations change, we remain by your side to give you maximum freedom and quality of life.

FAQ

Notes

FAQ

How much is a stairlift worth?

Our products are tailor-made, it will depend on the place of installation and the type of solution.

In which side of the stair is it installed?

It can be placed on both sides of the stairs, as appropriate.

How long does it take to install a stairlift?

A few hours, depending on the length of the rail.

Does it consume a lot of energy?

Its consumption is like that of a small conventional appliance.

How is the rail attached to the ladder?

It is fixed to the steps with a specific support for each type of material.

Do I need to hire maintenance?

According to current regulations for chairs, it is not mandatory, although we recommend carry out periodic maintenance to preserve the useful life of the chair.

Where can I find more information about stairlifts?

At https://homesolutions.tkelevator.com/es-es/ or by calling the free phone number XXXXXXX.

Is it necessary to do work to install a stairlift chair?

In general, it is not necessary, although our advisor will indicate it to you after visiting

the installation location.
