World Premiere Green Line

State-of-the-art magnifiers. Premium lighting.
 Smart charging technology.

Green Line: a unique fusion setting a new standard

-  Cutting-edge USB-C charging technology.
-  Effortless inductive (wireless) charging
-  Made from petroleum-free bioplastic with certified wood content
-  Proudly made in Germany

Green Line

Innovative. Sustainable.

Exceptional visual comfort meets true sustainability

At SCHWEIZER, we have consistently followed a clear and consistent sustainability strategy for years. The new Green Line pairs innovative, bio-based materials with advanced USB-C and wireless charging technologies – a pioneering fusion that sets new benchmarks.

Crafted primarily from renewable raw materials, Green Line products deliver outstanding environmental performance without compromising on quality.

Innovative technology meets sustainable design – now enhanced with USB-C and wireless charging

Sustainability is reflected not only in the materials but also in smart technology.

The new Green Line sets new standards in both.

Technology in harmony with nature:

- USB-C charging - available for the first time in our ERGO-Lux mobil GL c and MULTILIGHT Pro Pocket GL c
- Cutting-edge wireless charging technology in our ERGO-Lux mobil GL i
- Smart, modern charging made easy
- Eliminates the need for conventional batteries
- Made in Germany – ensuring short supply chains and premium quality

Inside the Green Line material:

- Unique blend of bio-based and in-house recycled materials
- Composed of 80% of bio-based content
- Biodegradable plastic
- Certified wood content from sustainable forestry

At a glance

The Green Line series.

ERGO-Lux mobil GL c

- Easy and efficient USB-C charging
- Approx. 18 hours of use on level 1, approx. 8 hours on level 2
- 17 magnifiers in 11 different powers
- Ergonomic design of handle
- Available in 2700 K, 4500 K, and 6500 K

ERGO-Lux mobil GL i

- Advanced wireless charging
- Approx. 18 hours of use on level 1, approx. 8 hours on level 2
- 17 magnifiers in 11 different powers
- Ergonomic design of handle
- Available in 2700 K, 4500 K, and 6500 K

MULTILIGHT Pro Pocket GL c

- Effortless USB-C charging
- Approx. 7 hours of use on level 1, over 3 hours on level 2
- Specially configured optics for wide, even light distribution
- Ergonomic handle design
- Compact and convenient for mobile use
- Available in 2700 K, 4500 K, and 6500 K

FUNCTIONAL GL

- Lightweight, aspheric lens
- Available in 12 D and 16 D
